

TOP TIPS FROM THE BOSS AT BOS

Operating for over 30 years, Bos Cleaning Supplies have the range of quality products, knowledge and expertise to help you clean better for less. Here are some tips:

Our new enzyme based floor cleaner is great for doing floors, but also a very good drain cleaner.

It destroys organic soils - destroying odours at the source, and is also a great product for simply maintaining clear drains.

Over the last 10 years there has been a movement of less chemical and more microfibre.

In some cases simply using just microfibre and no chemical does the job. At Bos Cleaning Supplies, we stock a large range of microfibre products: Cloths, Floor mops, Scrubbies and Nano erasers.

BOS
CLEANING SUPPLIES

Delivering solutions that can help you clean better for less.

www.boscleaningsupplies.co.nz

PH 357 6366
255 Main Street,
Palmerston North

At Bos Cleaning Supplies we sell a large range of cleaning machines to make cleaning easier.

- Carpet Extraction Machines
- Floor Scrubbers
- Push Sweepers
- Polishing Machines
- Wet and Dry Vacuum Cleaners
- Backpack Vacuums
- Dry Vacuums
- Commercial Stick Vac's

And please remember that we service what we sell. We have vacuum cleaners coming back for a service that are 15-20 years old - Is that not great value!

Hand Hygiene

Going into Autumn/Winter, it's timely to remember hand hygiene.

It is a known fact that washing hands is important, but what is probably more important is how we dry our hands. Research out of universities suggest that paper towels give the best results in hand drying.

So if you are using hand driers or commercial cloth towels or nothing at all, give us a call today.

Do you use commercial cleaners?

Are you happy with the costs and the results you are getting?

If the answer is no, have you thought about self cleaning? BOS are the experts in helping you make the move to self clean. Jump onto our website and see what we can do for you - and what we have done for some of our other clients.
